SQL

## PROJECTS

### Text-a-Toasty, Delivery Service Application | [Presentation](#)

Designed a delivery service application with SMS autoresponder technology to simplify a complex internal system of receiving orders.

### Jupiter, Cloud Storage Platform | [InVision Link](#)

Designed a cloud storage platform with social networking capabilities to support real-time collaboration. Ideated innovative technology to assist in more efficient learning with built-in auto-created flashcards for the busy student.

### BusyBus, Mobile Bus Application | [GitHub Link](#)

Designed a simplified mobile bus application that helps users quickly identify the fastest and nearest bus route. Developed an intuitive and clean interface using HTML5 and CSS3.

## EXPERIENCE

### Wayfair, eCommerce Merchandising Associate

Sept 2018 - Present

- Optimize the kitchen cluster's merchandising to provide a best-in-class customer shopping experience
- Led a \$2.2M marketing category increase in key KPIs by developing business strategies and analyzing customer Q&A and returns
- Collaborate extensively with cross-functional stakeholders to develop innovative and strategic solutions

### Thinkful Product Design Program

Apr 2019 - Jan 2020

- Learned industry best practices and design process standards with a focus on UX research, visual design, and front-end development
- Created and deployed projects while learning new tools and frameworks by collaborating several hours every week with a senior product designer

### MicroStrategy, Web Marketing Intern

May 2017 - Aug 2017

- Assisted in localizing, migrating, and debugging detailed code for the company website's Q3 project launch
- Collaborated weekly with web team to discuss strategic updates for improving user experience on site
